

QWIZDOM DOCUMENT CAMERA

The Qwizdom Document Camera is a powerful teaching tool that can be used to enhance the learning experience in any environment. Imagine instantly displaying an experiment, document, textbook, or 3D object to your students.

Control all aspects of the Document Camera with a remote control or with the intuitive on-device display. Zoom in with automatic focus to get a closer view of your object. Save and store images for later review or reference. Annotate and draw directly within your video.

NEW
